Price of Hunger, The

Series:

Min: 21/Level: 9-A

A documentary about worldwide hunger - its causes and solutions. This film is not only about the hungry people in the world. It is also about the Third World governments who trade the lives and health of their people for personal gain. And it is about our responsibility for hunger in the world - our foreign policy that supports corrupt governments and multi-national corporations whose business practices often rob the poor of their land and food. The video also shows how improved farming methods that do not depend on expensive energy, technology, and foreign investment could help reduce world hunger.
